

## PARTNERSHIP PROFILE

### enVista + GAINS

- As a GAINS implementation partner with end-to-end capabilities, enVista optimizes supply chains for informed decisions.
- The partnership enables enVista clients to optimize their supply chain planning and supply chain network design strategy within a single/ holistic platform.
- enVista empowers businesses with data-driven insights, ensuring improved decisions and customer fulfillment.

### GAINS Implementation Partner

GAINS is a supply chain performance optimization company dedicated to helping businesses drive faster and smarter decision-making wherever inventory management is a critical factor. With GAINS, supply chain teams can make informed decisions at scale, ensuring optimized inventory management, enhanced supply chain performance and improved customer fulfillment.

### End-to-End Capabilities

enVista is proud to be an implementation partner for GAINS, offering a comprehensive suite of end-to-end capabilities to help businesses fully leverage GAINS' supply chain performance optimization solutions. enVista's partnership with GAINS includes the following services:

### Sales and Operations Planning (S&OP)

enVista provides expert assistance in developing and implementing robust Sales and Operations Planning (S&OP) processes. This ensures that businesses can align their sales forecasts, production plans and inventory strategies, ultimately leading to more informed and effective decision-making.

### Demand and Supply Planning Process Improvements

Our partnership with GAINS allows us to assist organizations in enhancing their demand and supply planning processes. By leveraging GAINS' tools and insights, enVista helps companies optimize their planning activities, resulting in better allocation of resources, reduced lead times and improved overall efficiency.

### Inventory Parameters Optimization

enVista offers expertise in fine-tuning inventory parameters, ensuring that businesses maintain the right level of inventory to meet customer demand without overstocking. This leads to cost savings and improved supply chain performance.

### Supply Chain Network Strategy

Through our partnership with GAINS, enVista can help businesses streamline their networking and warehousing operations. This includes optimizing warehouse layouts, improving inventory control and ensuring products move efficiently through the supply chain.

### Data-Driven Insights

enVista's partnership with GAINS empowers businesses to harness the power of data-driven insights. Our joint efforts focus on leveraging data analytics to gain a deeper understanding of supply chain performance and make informed, data-backed decisions to improve forecast accuracy and customer service.

### Integration and Implementation

Our expert team at enVista ensures a seamless integration of GAINS' solutions into your existing supply chain processes. We provide comprehensive implementation and change management support, training and ongoing assistance to maximize the benefits of GAINS' platform.

### Two-Tiered Approach

GAINS and enVista have forged a dynamic partnership with a two-tiered approach aimed at revolutionizing network optimization and supply chain management. At the forefront is the Network + Network Modeling Services tier, which combines cutting-edge technology with expert analysis to develop comprehensive network models tailored to each client's unique needs. This tier ensures that businesses can optimize their operations for efficiency and cost-effectiveness.

Complementing this is the Integration Inventory + Network Strategy tier, which focuses on aligning inventory management strategies with network optimization goals. By seamlessly integrating inventory planning with network strategy, this tier enables businesses to achieve greater visibility, resilience and responsiveness in their supply chains. Together, these tiers represent a holistic solution that empowers businesses to thrive.

By partnering with enVista and GAINS, companies can harness the power of cutting-edge supply chain performance optimization tools and expert guidance to drive better decisions, right-size inventory, boost performance and exceed customer expectations.
