

In today's digital landscape, organizations face multifaceted cybersecurity challenges stemming from the complexity of IT environments, evolving cyber threats, stringent compliance requirements and lack of in-house expertise. enVista's Managed Detection and Response (MDR) service offers a comprehensive solution to address these challenges by combining advanced technologies with human expertise.

Key Benefits

enVista's MDR service is designed to provide comprehensive cybersecurity solutions tailored to modern organizational needs. These features encompass a spectrum of proactive measures and expert-led actions aimed at fortifying digital defenses, ensuring uninterrupted operations and swiftly responding to emerging threats. Features include:

24/7 Threat Monitoring and Response:

Continuous monitoring and response backed by six global Security Operations Centers (SOCs), ensuring around-the-clock coverage and proactive threat mitigation.

Full-Scale Incident Response:

Extensive response actions executed remotely to disrupt, contain, and fully eliminate active threats, safeguarding organizational data and operations.

Weekly and Monthly Reporting:

Real-time alerts, reporting, and management through a single dashboard, providing insights into security investigations, cyber threats and overall security posture.

Expert-Led Threat Hunting:

Proactive threat hunts conducted by highly-trained analysts to uncover and eliminate threats efficiently, supplemented by third-party vendor telemetry for comprehensive threat detection.

Direct Call-in Support:

Direct access to the SOC for reviewing potential threats and active incidents, supported by 24/7/365 availability and global support teams.

Dedicated Incident Response Lead:

Provision of a dedicated incident response lead for seamless collaboration with internal teams and external partners, ensuring timely incident resolution.

Root Cause Analysis:

Identification of underlying security issues through root cause analysis, accompanied by prescriptive guidance to address weaknesses and prevent future exploits.

Solution Benefits

The benefits of enVista's MDR service encompass a comprehensive range of advantages tailored to meet the diverse needs of organizations. These benefits include improved threat detection and response capabilities, facilitated by 24/7 monitoring and proactive threat mitigation. Additionally, enVista MDR is cost-effective, providing access to advanced cybersecurity technologies and expertise without the overhead of building and maintaining an in-house SOC.

Compliance and regulatory requirements are seamlessly met through automated reporting and monitoring features, ensuring adherence to industry standards and regulations. Moreover, organizations gain access to a team of cybersecurity experts, enabling them to leverage the latest security insights and strategies. Indirect benefits of enVista MDR include increased productivity, enhanced reputation, reduced downtime and improved decision-making – further bolstering organizational resilience and effectiveness in the face of evolving cyber threats.

Why enVista?

enVista MDR offers a proactive and comprehensive approach to cybersecurity, addressing the complex challenges faced by organizations in today's threat landscape. By leveraging advanced technologies, expert-led threat detection and response and compliance-focused features, enVista MDR enables organizations to enhance their security posture, mitigate risks and safeguard their data, systems and networks effectively.

About enVista

enVista is the leading supply chain and enterprise consulting firm and the premier provider of supply chain technology & strategy services, material handling automation & robotics, Microsoft solutions and IT managed services. With 20+ years of unmatched domain expertise, enVista serves thousands of leading brands. enVista's unique ability to consult, implement and operate across supply chain, IT and enterprise technology solutions allows companies to leverage enVista as a trusted advisor across their enterprises.

Consulting and solutions delivery is in our DNA.

Let's have a conversation.®
