

# Microsoft Dynamics 365 Finance & Supply Chain Management

Microsoft Dynamics 365 (D365) Finance & Supply Chain Management (F&SCM) is a comprehensive enterprise resource planning (ERP) solution designed to meet the diverse needs of medium- to large-scale businesses. D365 F&SCM is an integral component of the Microsoft Dynamics 365 suite, delivering powerful tools for financial management, supply chain optimization and operational efficiency.

Microsoft Dynamics 365 Finance & Supply Chain Management empowers organizations to make informed decisions, adapt to evolving regulatory landscapes and enhance overall business agility. By providing real-time insights, predicting outcomes and enabling data-driven decision making, it helps businesses stay competitive and grow. With its intuitive user interface, personalized for each user's role and preferences, D365 F&SCM allows for seamless integrations and enables users to work effectively anywhere, anytime.

## Key Features

Key features of D365 F&SCM include:

### Financial Management

Streamline financial processes, automate financial reporting and gain real-time insights into your organization's financial health.

### Supply Chain Management

Optimize your supply chain, improve visibility into inventory and enhance vendor and warehouse management.

### Manufacturing

Manage production processes, resource planning and product lifecycle from end to end.

### Commerce

Support point-of-sale, merchandising and store operations with a unified commerce solution.

### Human Resources

Handle employee data, payroll, benefits and compliance requirements within a single system.

### Business Intelligence

Leverage Power BI for data analytics and reporting to make informed business decisions.

### Global Capabilities

Adapt to local and international regulations with multi-language, multi-currency and multi-company capabilities.

### Scalability

Scale the system as your business grows, suiting your organization's needs at all sizes.

### Integration

Seamlessly integrate with other Microsoft products – such as M365, Power Platform and Azure services – to extend functionality.

## Benefits

Microsoft Dynamics 365 Finance & Supply Chain Management is a powerful platform designed to streamline business operations, enhance efficiency and drive growth. By automating tasks and delivering data-driven insights, D365 F&SCM empowers organizations to make informed decisions and optimize their supply chain. With real-time visibility, the platform offers a holistic view crucial for strategic decision making. Its flexible deployment options enable businesses to adapt and remain competitive in today's Dynamics business landscape.

Designed for scalability, D365 F&SCM adapts to business growth and changes, with flexible deployments to fit changing needs. It caters to diverse range of industries, including manufacturing, retail and distribution.

Supported by comprehensive services, D365 F&SCM empowers organizations to maximize the platform's potential. Its high level of customization allows businesses to tailor the systems to their unique requirements, providing greater operational control and flexibility.

The platform's strength lies in its seamless integration with Microsoft products and other third-party applications, creating an interconnected IT ecosystem. This integration enhances efficiency, data flow and interoperability, which are critical for success in today's fast-paced digital landscape.

## Why enVista?

enVista's Microsoft Dynamics 365 consultants play a pivotal role in ensuring our clients realize their business objectives. Our consulting services are designed to expedite time-to-value, fostering continuous streams of business outcomes. As a distinguished Microsoft Solution Partner and part of the Microsoft Inner Circle, with expertise in Business Applications, Data & AI, Digital & App Innovation and Modern Work, we seamlessly merge extensive technical capabilities with profound industry knowledge.
