

Microsoft Dynamics AX Upgrade

enVista's comprehensive migration and implementation services ensure a seamless transition from your legacy Microsoft ERP system to Dynamics 365 Finance and Supply Chain Management.

Are you seeking a swift and dependable solution to transition from your legacy Microsoft ERP system to Dynamics 365 Finance and Supply Chain Management? enVista offers comprehensive migration and implementation services designed to facilitate a seamless and successful transition. With our expertise and experience, we guide you through every step of the migration process, from assessment to configuration to training and go-live.

Key Features + Benefits

Expertise: Our team consists of seasoned Microsoft professionals specializing in Dynamics AX upgrades and Dynamics 365 Finance and Supply Chain Management services. With decades of experience in the field, our experts bring unparalleled knowledge and skill to ensure a

smooth transition for your organization, covering intricate technical aspects and strategic planning. We offer expertise at every level of the migration process, ensuring comprehensive support throughout.

Seamlessness: Our proven, repeatable process is meticulously crafted to streamline upgrades and implementations, minimizing downtime and maximizing efficiency. You can trust that your migration project will be completed promptly, freeing you to concentrate on your core business activities. enVista's efficient approach not only saves time but also minimizes costs linked with prolonged migration processes, ensuring a seamless transition with optimal utilization of resources.

Holistic Approach: enVista's comprehensive

upgrade methodology encompasses every facet of the migration journey, commencing from meticulous initial planning through to steadfast post-go-live support. Our holistic methodology guarantees that each element of your migration endeavor is meticulously managed and executed, culminating in a seamless transition to Dynamics 365 Finance and Supply Chain Management. Our holistic upgrade approach has three pillars, each designed to minimize implementation time, effort and cost:

- Technical Data Upgrade
- Legacy Customization Rationalization
- Standard Process Migration

Technical Data Upgrade: By industrializing published data upgrade processes, we can minimize manual data conversion time and cost, while maximizing the data converted from your legacy AX deployment into Dynamics 365. This in turn optimizes business continuity across the application migration.

Legacy Customization Rationalization: Our process for evaluating, solutioning and cost justification of legacy customizations ensures you will minimize customization build effort and cost, as well as minimize long-term total cost of ownership.

Standard Process Migration: We minimize design and configuration changes by working with you to update existing system processes only when required

to align with changed standard software processes or to implement new functionality. This approach also has the benefit of ensuring migration time, effort and cost are minimized.

Why enVista?

enVista's comprehensive upgrades encompass every facet of the migration journey, commencing from meticulous initial planning through to steadfast post-go-live support. Our holistic methodology guarantees that each element of your migration endeavor is meticulously managed and executed, culminating in a seamless transition to Dynamics 365 Finance and Supply Chain Management. With continual support and guidance from our adept team, you can confidently navigate the intricacies of the new system, ensuring a smooth and effortless transition.

With enVista's Dynamics AX Upgrade package, you can trust that your migration to Dynamics 365 Finance and Supply Chain Management will be seamless and successful. Partner with us to leverage our expertise, efficiency and tailored solutions for a smooth transition to the latest and greatest Dynamics 365 cloud functionality. Experience the difference of working with a trusted partner who is dedicated to your success.
