

enVista's Power BI Consulting Services enable data-driven decision-making by unifying data sources and creating compelling visual reports, ensuring quick and confident business decisions.

In today's age of big data, establishing a data-driven organization is paramount. enVista offers Microsoft Power BI consulting services to assist in revealing the hidden value within your data, enabling you to share meaningful insights effortlessly and confidently across your enterprise.

With a team of dedicated Microsoft consultants, enVista empowers your organization to connect data sources, create interactive dashboards and make quick, data-informed decisions.

## Key Services

**Unify Data Sources:** Our services make it easy to merge data from various sources, including Excel spreadsheets, cloud-based services and on-premises data warehouses. This consolidation streamlines the data for analysis.

**Generate Insights:** With our Power BI Consulting Services, you can craft compelling reports and dashboards that vividly visualize data analytics and insights, making complex information more accessible.

**Share Business Results:** We provide secure publication of reports through the Power BI service, ensuring that the right stakeholders in your organization have access to critical information.

**Empower Your Employees:** By integrating Power BI with daily tools like Microsoft Teams and Excel, we enable your staff to leverage their data efficiently and effectively.

**Connect, Model and Visualize Your Data:** Our team helps you track key performance indicators, personalizing reports and performing in-depth analysis on all your data sources. We develop a

customized Power BI strategy to extract unique insights.

**Create Impactful Data Experiences:** enVista enhances your reporting capabilities by simplifying the integration of interactive and intelligent data experiences within familiar applications, making data exploration more engaging.

## Benefits

Our Power BI Consulting Services offer numerous benefits, including enhanced decision-making capabilities with quicker insights. We also provide self-service training to empower your staff, enabling them to be part of the solution. Furthermore, you can create and share certified data sets that provide unique insights. Our services reduce reporting time from weeks to minutes and offer the flexibility to

find or create custom visuals tailored to your specific needs. Power BI is also mobile-ready, ensuring you stay informed while on the go. You can connect to your data in the cloud, on-premises or through a hybrid approach, providing flexibility for your data needs.
