

Transportation Business Intelligence

Set your company apart by driving strategic decision-making and improving efficiency.

Introduction

enVista automates freight bill processing and payment for all modes shippers globally, in any currency or language, empowering clients with expert analytics and market-leading technology that helps improve supply chain operations.

Every shipper has opportunities to reduce costs, create efficiencies, and optimize supply chain and transportation operations. Most shippers are paying charges they should not be, paying higher freight rates than necessary and using sub-optimal processes. These issues can create a material impact on the transportation spend bottom line. Using enVista's proprietary, cloud-based global freight audit and payment solution, myShipINFO®, the enVista team is able to audit and pay freight bills for any mode of transportation to and from any location across the globe, in any currency or language, and turn that information into actionable intelligence for clients to improve end-to-end supply chain operations.

enVista's myShipINFO® business intelligence product allows shippers to consolidate data from multiple sources to achieve visibility to all transportation spend, improve network strategy and optimize transportation operations and finance.

Rich Visualization Options

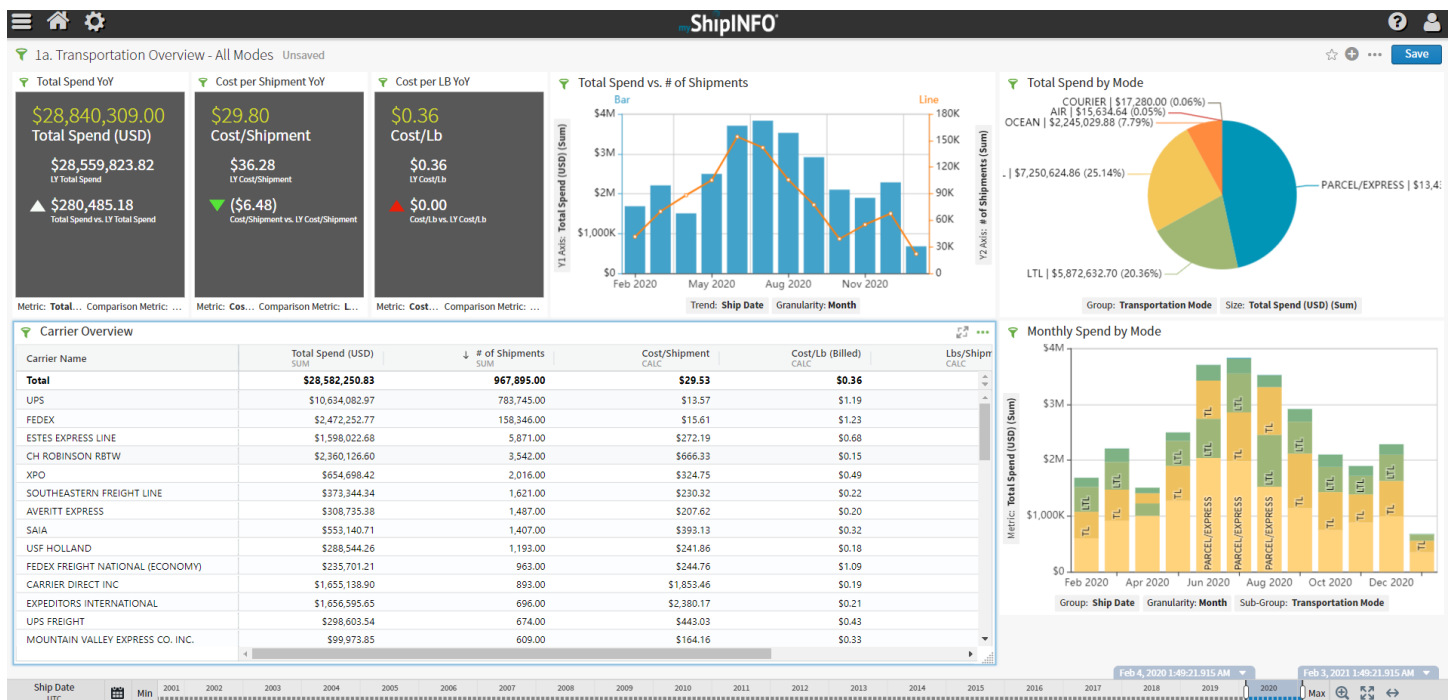

Figure 1

- Dozens of robust visualization options
- Ability to integrate multiple visuals into one dashboard view
- Easily configurable to desired specs

Drill Down to Get Answers

- "Zoom" into visuals to target information
- Drill-in dashboard options include hundreds of field options
- Highlights make it easy to see opportunities to explore exceptions and inefficiencies

Figure 1: Rich Visualization Options

Network Optimization

- enVista analysts create dashboards that drive network optimization
- Dynamic maps create visuals that show network efficiency gain opportunities
- Dashboards are customized to compare in-network vs. out-of-network shipments

Immediate Efficiency Gains

- Eliminate the need to run large reports and pivot in Excel
- Create custom calculations that align with your KPIs
- Summarize data for tens of millions of records instantly

Customized to Your Key Performance Indicators (KPI)

Figure 2

- Integrate fields that align with KPI needs
- Create dashboard results at the channel, brand, node, product and other levels
- Replace manual KPI processes with dynamic dashboards that auto-refresh

Robust Configurations

- All dashboards are filterable and configurable
- Export the shipment-level detail for any visual at any time
- Color schemes and graphic options can be customized and exported for presentations

Interactive Maps

- Drill-down capabilities extend to map visualizations
- Zoom to the postal code level for targeted analysis

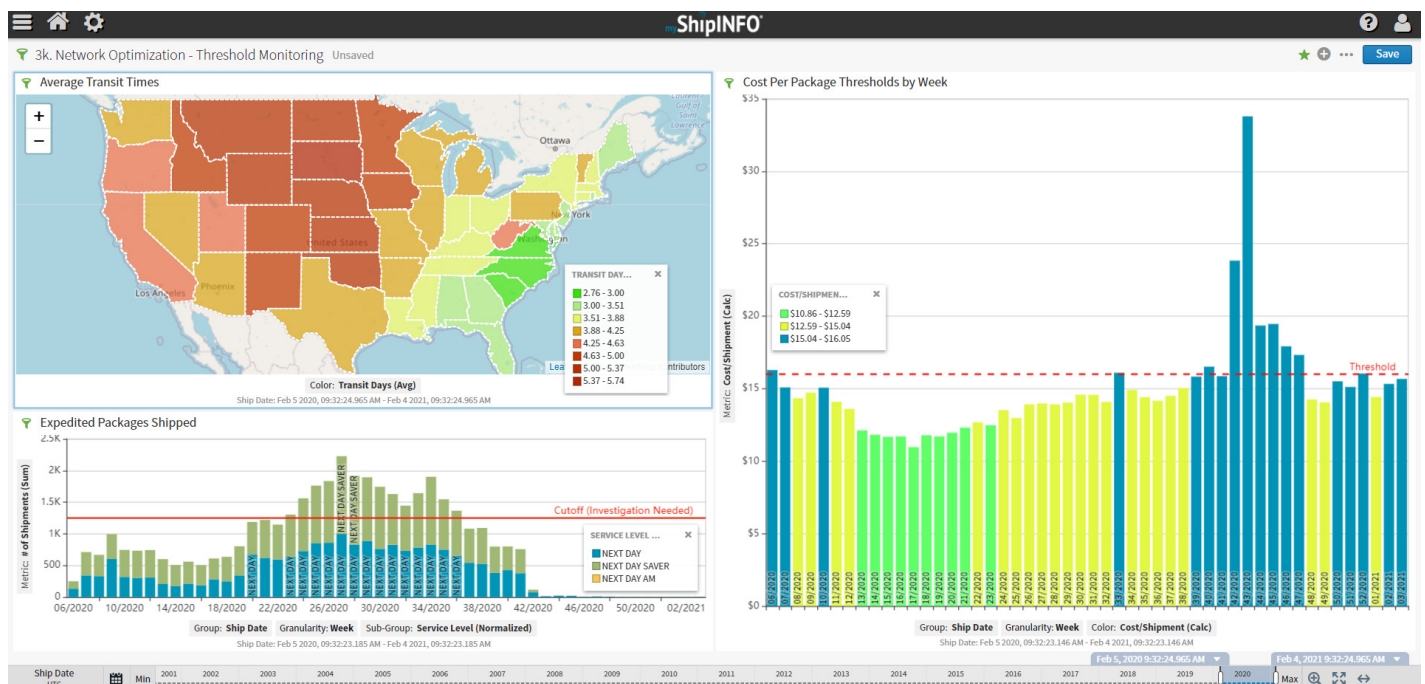

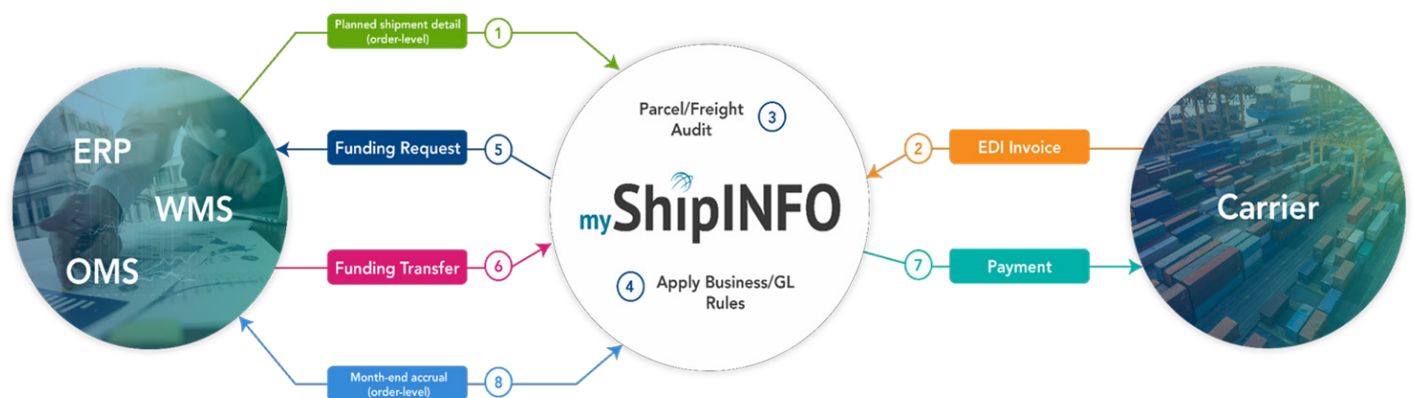

Figure 3: Integration Flow Diagram

"The journey with enVista has been great. We were operating in the dark with our data, but as our engagement with them progressed from parcel audit to freight payment, we've gained financial and operational visibility to KPIs without us needing to do any heavy lifting."

-Sr. Logistics Manager, Peet's Coffee

About enVista

enVista is a global software, consulting, and managed services provider, optimizing and transforming physical and digital commerce for the world's leading manufacturers, distributors, 3PLs/LSPs, and omnichannel retailers. enVista uniquely optimizes and transforms physical and digital commerce – optimizing supply chain efficiencies to drive cost savings, and unifying commerce to drive customer engagement and revenue. These comprehensive capabilities, combined with enVista's market-leading Unified Commerce Platform, Enspire Commerce, and the firm's ability to consult, implement and operate across supply chain, transportation, IT, enterprise business solutions and omnichannel commerce, allows mid-market and Fortune 100/5000 companies to leverage enVista as a trusted advisor across their enterprises.

Consulting and solutions delivery is in our DNA.

Let's have a conversation.™
