

enStore™ Mobile Store Solution

enStore™'s easy-to-use, flexible and customizable mobile application uniquely integrates omnichannel order fulfillment, enterprise inventory availability and mobile point of sale capabilities. Store associates are empowered to deliver seamless, stellar customer service from a single, handheld device anywhere in the store.

Revolutionize your customer care and store operations.

enVista's enStore™ is a game-changer for omnichannel retail organizations looking for a point solution to increase visibility, mobility and agility across their customer-facing and store operations

associate functions. With the look and feel of a consumer app, enStore™ is an intuitive, integrated mobile application purpose-built to create orders, process fulfillments and manage inventory while on the go, allowing associates to deliver exceptional customer service wherever they are.

Unified Store App

One single, integrated mobile solution manages all three functions of the omnichannel store experience: orders, fulfillment and inventory – bridging the point of sale (POS) and order management system (OMS) to provide an unmatched customer experience at all points of the in-store process.

Onboarding & Training

A simple, easy-to-use solution includes customizable onboarding, training modules and in-app assistance, making it notably easy to use and efficient to onboard and train associates across the store network.

Gamification

A game-changer for associate motivation with built-in gamification features to incentivize, engage and reward associates around picking, packing and selling, and ultimately, focus on delivering quick and delightful experiences for customers.

Enhance the Customer Experience

Rapid Mobile Checkout

Provide associates the flexibility to serve customers from anywhere in the store by taking traditional store orders.

Endless Aisle Ordering

Leverage enterprise inventory to expand your offerings in the store, allowing your customers to have the same buying experience no matter where they choose to meet you.

Easily Manage Omnichannel Store Operations

Efficient Mobile Picking

Make it quick and easy for your associates to pick online orders in the store. Mobility eliminates the need for printed picklists and allows for easy validation of the picked item without returning to the backroom.

Omni-Store Inventory Management

Create store-to-store transfers and receive inventory on the go. Process store inventory transfers related to omnichannel customer orders, perform cycle counts and manage inventory exceptions all in one place.

Customer Service Anywhere

Empower your store associates to help your customers throughout the order lifecycle with the ability to view and update orders directly from the mobile app.

Omnichannel Returns

Allow customers to return any order in-store regardless of whether the order originated in-store or in an online channel.

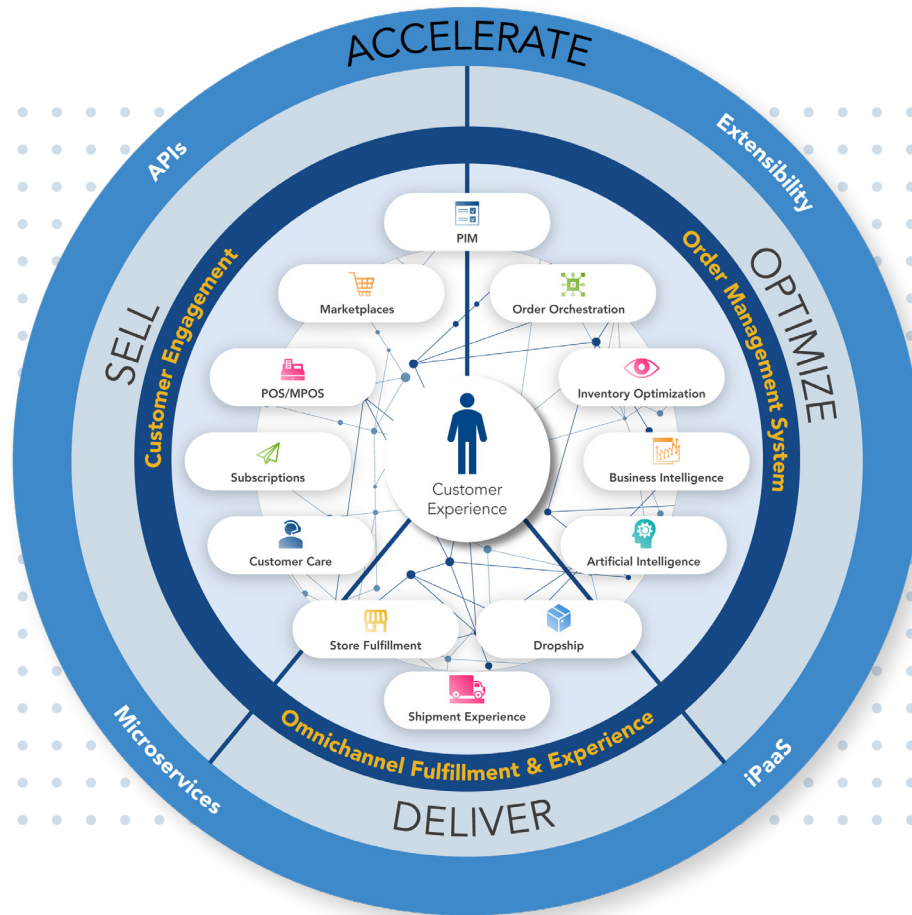

Built-in Operational Alerting

Alerts and notifications easily let associates know when work is ready to accept and understand any time-sensitive tasks, such as ship from store and buy online, pick up in store (BOPIS) orders.

Leveraging a highly extensible microservices architecture, enStore™ can run on Apple iOS, Windows or Android devices and easily integrates to a retailer's existing technology. enStore™ is pre-integrated and built on a common data model with enVista's market-leading OMS and POS solutions; however, it can easily be leveraged with any order management system or POS as needed.

Buy, Fulfill and Return Anywhere with enVista's Unified Commerce Platform

About enVista

enVista is a global software, consulting, managed services and automation firm, optimizing and transforming physical and digital commerce for the world's leading manufacturers, distributors, 3PLs/ LSPs, and omnichannel retailers. enVista uniquely optimizes and transforms physical and digital commerce – optimizing supply chain efficiencies to drive cost savings, and unifying commerce to drive customer engagement and revenue. These comprehensive capabilities, combined with enVista's market-leading Unified Commerce Platform,

Enspire Commerce and the firm's ability to consult, implement and operate across supply chain, transportation, IT, enterprise business solutions and omnichannel commerce, allow mid-market and Fortune 100/5000 companies to leverage enVista as a trusted advisor across their enterprises.
